Japan Cryptoasset Business Association

The Japan Cryptoasset Business Association (JCBA), established in 2016, is dedicated to promoting the development of Japan's digital asset industry. With a diverse membership, JCBA champions industry growth through research and policy initiatives.

About JCBA

The Japan Cryptoasset Business Association (JCBA), founded in 2016, includes domestic and international for-profit enterprises, public institutions, and government bodies. JCBA fosters an environment for businesses in Japan's digital asset landscape, covering crypto assets, NFTs, stablecoins, and other digital assets in public blockchain and web3 ecosystems.

JCBA's mission is to promote the domestic digital asset industry's growth. This is achieved by leveraging expertise from member professionals in technology, taxation, accounting, law, and business. JCBA conducts research, formulates policy recommendations, engages in advocacy, and fosters talent development to support industry growth.
